Title : Need to convert Arasaradi bypass road in Madurai into four lane and construct a new by pass linking uthangudi with Samayanallur on Madurai-Dindigul section.

SHRI P. MOHAN (MADURAI): ARASARADI by-pass road in Madurai that links Madurai Tirunelveli NH-7 with Madurai-Dindigul NH-7 needs to be converted to a four-lane-road at the earliest. The existing road with a narrow road bridge leads to accidents and loss of lives. The bridge also needs to be widened.

Similarly Uthangudi on Madurai-Tiruchi road must be linked to Samayanallur on the Madurai-Dindigul road by way of laying a new Bye-Pass road.

These two projects must be taken up to ease traffic congestion in those accident-prone road stretches in the city limits of Madurai. This would help prevent road accidents and resultant deaths.

Hence, I urge upon the Union Government to take up these two projects at the earliest.
